Re: brakes discs

In a committee meeting it was decided that all cars running under 11 seconds must have front disc brakes in all classes including bracket and handicap classes

All cars running under 11 seconds in SS classes must use makers suspensions (Capri and Cortina on an escort are permitted) front brake calipers such as willwood or equivalent are permitted but must be four pot. Steel factory brake discs and hubs must be retained

Motorcycle calipers are strictly prohibited in all classes including bracket and handicapp

This regulation must be observed as from the 18 th april 2009

Thanks

Jason camilleri
